Thank you for choosing a fine Furniture for the Bath™ vanity from Cole & Co. A constant innovator in the industry, Cole & Co. has taken the painstaking difficulty out of finding extraordinary pieces for powder baths, master baths, kitchens & wetbars, while still maintaining storage, and ease in installation.

To help insure a successful installation, please read these instructions carefully before you begin. Also, carefully unpack and examine your new plumbing fixture.

To maintain the beauty of the finish, avoid placing the furniture in direct sunlight, as sunlight causes fading. Also avoid extreme changes in temperature by arranging furniture away from radiators, heat and air vents, and air conditioning units.

(To insure a proper fit and to maintain manufacturer's warranty, installation by a plumbing professional is recommended)

(Rough in plumbing supply lines and waste per standard rough-in dimensions (24" above the floor with supplies 6" on center. NOTE: If supply lines are greater than 6" on center, they may interfere with cutout in rear of vanity or vanity shelf.)

Move the vanity into place and anchor to the wall through anchoring holes in the rear of the vanity. Continue with installation appropriate for top and sink options chosen.
